

Ian Forinash

Senior Consultant, RWB Aerospace Professionals

Marine Corps Veteran with extensive experience in leadership roles on billion-dollar programs and projects for Fortune 100 aerospace organizations such as Raytheon and General Dynamics. Dynamic leader, SME for complex system integration programs and EVMS. Dedicated to improving aerospace industry performance overall and delivering capability to the Warfighter ahead of schedule and under budget.

- Program Management
- EVMS Implementation and Integration
- Management Consulting
- Certified Level 4 Program Manager
- Strategic Planning
- Technical Writing
- Proposal Leadership
- Program Turnaround

Accomplishments

P&L and Leadership Excellence

Held Profit & Loss and leadership roles on multipole successful programs and projects, with values between \$200M and \$1B for Fortune 100 aerospace organizations.

EVMS SME

Leveraged Subject Matter Expertise in EVMS to help drive successful turnaround of a struggling and critical \$700M GPS program.

Proven Project Results

Strategically led a \$200M anti-tank weapons system upgrade for Marine Corps to replace 100+ vehicle turrets, reduce weight by 3,000 pounds, and implement groundbreaking capabilities. Oversaw program scope, production, contracts, subcontractor and supplier management, quality, change control, risk, and timeline estimates. Overachieved expectations and revolutionized both hardware and capabilities.

Known for mitigating risks with effectual Risk and Opportunity processes. These include continuously updating Risk and Opportunity Management Plan and weekly tracking meetings, as needed.

Appointed to step in and spearhead an Over Target Baseline (OTB) on a critical \$700M GPS program that was over budget and behind schedule at four years in. Completely restructured program with accountability checkpoints, planned new scope, reworked budget, and conducted numerous workshops with 200+ project team members. This resulted in saving the program, preserving the contract, and upholding the company's reputation.

Led development of the IMS for proposals ranging from \$50M to \$2B

Work History

Senior Consultant: Strategically and skillfully guide client aerospace companies with DoD and government contracts in Program Management, Earned Value Management System implementation and integration, and Proposal Management. Leverage program management, convergent thinking, and intellect expertise to elucidate, plan, and execute development of complex systems, including development, integration, and reconciliation of structures, process, and governance using standardized workflows, templates, and business rhythm. 2019-Present

Program Manager, Raytheon: Dynamically directed functional and execution teams on high stakes programs for Raytheon with budget oversight of \$100M to \$1.5B per program and full P&L responsibility of \$200M+. Held several program titles over tenure including Senior Program Manager, Deputy Program Manager, Subcontract Manager, Risk and Opportunity Manager, and IPT Lead. Participated in or led execution of all gates including EVMS Implementation (IBR), Design Gates (SFR, PDR, CDR), Test (TRR, DVT, PVT), Production Readiness (PRR), Production Execution (IOC, FOC), and Site Acceptance (SAT). As Senior PM, partnered with U.S. Marine Corps production facilities to deliver systems for IOC and FOC of Light Armored Vehicle Anti-Tank Weapons Systems (LAV-AT2) upgrades. 2004-2019

Manufacturing Management, Boeing: Expertly managed the production and manufacturing plans for new product lines and subsystems by innovating processes, drafting technical plans, developing metrics, tracking data and reporting. Supervised the implementation of new engineering documentation and planning to the production line. Oversaw assembly of the new product for the first shipment to a new international customer ahead of deadline and under budget. 1995-2004

U.S. Marine Corps: Served with Regimental Combat Team 7 (7th Marines) in 29 Palms, California. Received Navy Achievement Medal (First Award) for meritorious conduct. Selected to serve on the staff of the Commandant of the Marine Corps. Awarded Navy Achievement Medal (Second Award) for superior performance. 1991-1995

Education: BS, Business Administration and Management, California State, Northridge

Certifications: Raytheon Certified Level 4 Program Manager

Technology High Proficiencies: MS Office, MS Project, MS Visio, MS Excel, MS PowerPoint
